ADVANCED COMBAT HELMET

EXPLL EXP-HCH100B

ADVANCED COMBAT HELMET

The EXP-HCH100B is an advanced tactical helmet designed to provide uniform protection against ballistic threats. It is constructed using a complex and compound shell that ensures superior protection against fragments and other ballistic threats. The helmet is designed to be lightweight yet highly effective, making it an ideal choice for those in situations where agility and protection are both important.

The EXP-HCH100B is equipped with a standard stability harness, which provides excellent stability during intense tactical maneuvers. The harness also features soft, non-scratching, and non-irritating materials that won't cause any discomfort to the wearer.

The helmet also features integrated communication systems, making it easy for users to stay in touch with their team. The helmet also comes with a visor that can be adjusted to the user's preference, making it possible to see clearly in a range of environments and conditions.

The EXP-HCH100B has been tested and proven to provide superior protection against ballistic threats, making it a reliable option for those in high-risk situations. Its lightweight design and adjustable features make it an ideal choice for those who need to move quickly and safely.

In short, the EXP-HCH100B is a lightweight tactical helmet designed to provide superior protection against ballistic threats. It is equipped with a standard stability harness, integrated communication systems, and an adjustable visor that makes it possible to see clearly in a range of environments. The helmet is tested and proven to provide reliable protection, making it an ideal choice for those in high-risk situations..

SMART FUNCTIONALITY

EXCELLENT SHOCK ABSORPTION

CHEMICAL SAFE

FEATURES

LIGHTWEIGHT

MODULAR PADDED SUSPENSION SYSTEM

ANTI ALLERGIC

INFRA-RED REFLECTANCE

ALL WEATHER PROOF

STANDARD

NIJ 0106.01

BALLISTIC PROTECTION (V0)

- 9mm FMJ RN @ 436±9 m/s
- .44 Mag SJHP @ 436±9 m/s
- .357 SIG FMJ FN @ 448±9 m/s

FRAGMENT PROTECTION (V50)

Minimum 650 m/s against 17 gr FSP, as per MIL-STD-662F/STANAG 2920

ACCESSORIES

- Side Rail
- NVG Shroud
- Shock Absorbing Elastic Strap (Bungee cord)
- Hook and Loop
- Helmet Carry Bag
- Helmet Cover
- Rotary Mechanism (Ratchet System)

WEIGHT

1650 g Maximum (Weight includes Helmet Shell, Suspension Retention System, NVG Shroud & Siderail.)

HEAD CIRCUMFERENCE

52 - 64 cm

COLOR

MOSS COLOUR 6003 (Olive Green)
